\(\text{Notes}\)

1. The total amount bequeathed to charity in New York does not reflect planned gifts such as charitable remainder trusts, charitable lead trusts, foundations, etc. whose creation often results from estate planning.

2. The majority of estates file Federal estate tax returns in the year after a decedent's death. So, in 2010, most returns were filed for deaths that occurred in 2009, for which the filing threshold was $3.5 million. Because of filing extensions, however, some returns were filed in 2010 for deaths that occurred prior to 2009, for which filing thresholds were lower (2006-2008 = $2M).
